

THERMAL MANAGEMENT

FyreJacket® Industrial

Product Highlights

- Operating temperature
-54°C to +260°C
(-65°F to +500°F)
- Highly flexible

FyreJacket® Industrial is a thickwall, knitted fiberglass sleeving with an external coating of flame retardant silicone rubber. This product can be easily installed on cables and hoses.

FyreJacket Industrial provides effective protection against sustained high temperatures, flames and molten metal splashes that can seriously damage electrical cables and hydraulic, gas and lubricant supply lines.

This product is used in the steel and petrochemical industries to protect against internal and external hazards, especially to prevent hand touching from hot lines.

Our manufacturing sites are certified ISO 9001, IATF 16949, or AS/EN 9100, ISO 14001 and ISO 45001 (Selected Sites)
