

## Product Highlights

- Continuous long-term heat protection to +538°C (+1000°F)
- Heavy wall thickness
- High insulation properties

**ThermoJacket® T** is constructed of braided high bulk fiberglass yarn. These yarns provide a heavier wall thickness with only a modest weight increase over other ThermoJacket products. ThermoJacket T provides excellent insulation properties and withstands continuous heat exposures to +538°C (+1000°F).

ThermoJacket sleeving provides excellent long-term heat protection for hoses, wire harnesses and cables. ThermoJacket is available in a variety of grades, offering industrial users the option of selecting combination of properties best suited to their specific application.

Our manufacturing sites are certified ISO 9001, IATF 16949, or AS/EN 9100, ISO 14001 and ISO 45001 (Selected Sites)
